LUCAS KOTVISKI FIALA

Senior Product Designer (UX/UI)

Curitiba, PR - Brazil • +55 (41) 988-899-884 • efialalucas@hotmail.com • Linkedin • Portfolio

---

SUMMARY

Senior Product Designer with 10+ years in design, focused on complex B2B platforms and AI-powered products. I work end to end, from discovery and prioritization to prototyping and delivery, aligning user needs, business goals and technical constraints.

CORE STRENGTHS

Product Design • Discovery • UX Research • Design Thinking • Interaction Design • Design System • Workflow • Prototyping • AI-Powered Products • Accessibility • Figma • Scrum/Kanban • English

PROFESSIONAL EXPERIENCE

Senior Product Designer — Claro | Hitss *Feb 2023 – Oct 2026*

- Designed two products from scratch, a WhatsApp campaign platform and an AI chat agent builder, and led their unification into a single platform. Sole designer, from discovery to beta release.
- Built the Design System and visual identity applied across three products, cutting front-end development time by 25% and QA rework by 44% (tracked in Jira).
- Worked on up to six products in parallel, including Proofs of Concept, and took on Product Owner responsibilities.

Senior UX/UI Designer — UN | UNICEF *Jan 2022 – Dec 2022*

- Led the UX/UI design of the first digital monitoring platform for the Selo UNICEF program, which certified 934 municipalities in its 2021–2024 edition.
- Translated complex program requirements into role-based journeys and workflows for UNICEF agents, public managers, schools and health professionals.
- Created a unified Design System to keep the platform and related projects consistent and scalable.

UX/UI Designer — Electrolux *Jul 2021 – Jan 2022*

- Planned and executed an internal machine-reading project, providing direct support to the development team.
- Designed an intuitive interface for low-resolution displays, improving user team satisfaction based on feedback.

Senior Designer, SEO and Marketing Analyst — Solo Network *Nov 2020 – Jun 2021*

- Coordinated digital campaigns and products, including websites, landing pages and social media presence.
- Implemented SEO strategies, reducing reliance on paid advertising by 15% and increasing organic traffic by 50% within six months.

Sole UX/UI Designer, Web Designer, SEO — Gatefy *Oct 2017 – Oct 2020*

- Joined through marketing and pitched the role of product designer; became the sole designer of the company's Secure Email Gateway platform.
- Defined the MVP and MMP and built a Design System from scratch, turning complex security rules into an intuitive admin experience.

Earlier experience *2012 – Oct 2017*

- Joined through marketing and pitched the role of product designer; became the sole designer of the company's
